FLAT RATE PRICING, NO EXTRA FEES. WEEKLY ROUTES WITH NO MILEAGE CHARGES!

Air and Surface Disinfecting Experts. Founded in Lincoln. Owner-operated, BBB Accredited, Insured and Bonded. In business for COVID-19 since May 2020.

Electrostatic Backpack Technology

EPA Approved

We use a hospital grade disinfectant that is EPA approved for use against COVID.

Time Efficient

We are efficient. Our sprayer technology allows us to coat surfaces 70% faster than normal.

360° Coverage

Our electrostatic spray wraps around and under all surfaces, providing 360° coverage.

Benefits of using our EPA Approved HOCL disinfectant tablets:

- Dries within 10 minutes
- Water-Based
- Kills Mold and Mildew
- NSF D2 Certified for food surfaces
- Hospital Grade
- All-Natural, Safe for Kids and Plants

Besides SARS-CoV-2 (Coronavirus), what else does our disinfectant kill?

Norovirus, Conjunctivitis, MRSA/Staph, Hand Foot and Mouth Disease, and Influenza-A (flu).

Routine Clients

We have weekly routes from Auburn to Lexington, making it easy to add clients of all sizes.

Other Services

Air Sanitizing portable devices for individual classrooms, larger spaces, and vehicle models for buses.

ActivePure® is an exclusive environmental technology that solves many everyday indoor air and surface contamination problems. ActivePure's advanced oxidizers are proven to reduce up to 99.99% of surface and air contaminants including SARS-CoV-2. ActivePure is safe to continuously use in indoor spaces occupied by people, while quickly and safely reducing exposure to pathogens.

ATP Testing

We swab surfaces before and after to validate our work and for required audit purposes.

Pricing

Transparent pricing of cents per treated Sq/Ft, or per vehicle, with NO other fees or surcharges.
